**Position Description: Psychologist – Contractor Role**  
**Hours: Variable (Part-time and Full-time options available)**

**The role:**

As a fully registered psychologist you will be responsible for providing direct psychological services (including assessment and intervention) to children and adolescents aged 3 – 21 years, with social, emotional and/or behavioural difficulties.

**Key Responsibilities:**

To provide psychological services (including assessment and intervention) to children and adolescents aged 3 – 21 years, incorporating agreed upon formats which may include; face to face in clinic, telehealth and outreach school appointments.

To assist with designing and delivering programs (including groups when relevant) for children and adolescents with social challenges, and adults requiring parenting support.

To assist families to access any relevant funding through government and non-government funding bodies.

To plan, coordinate and implement appropriate follow-up strategies including psychological therapy, or appropriate referral to other agencies or team members.

To provide outreach services to observe children and their interactions in other settings such as at school or home in order to make recommendations to support parents and professionals.

To attend meetings to advocate for a child's particular needs with their school.

To maintain accurate client records as required. To participate in case allocation and case review meetings.

To provide written psychological reports relating to psychological assessments, and educational and behavioural recommendations to support the individual needs of young people and their families.

To participate in regular training and professional development to further develop skills and knowledge in providing psychological services to children and adolescents.

### **Requirements:**
